FAB-FORM™

LEADERS IN FABRIC FORMING

FASTFOOT®

Form strip footings with fabric

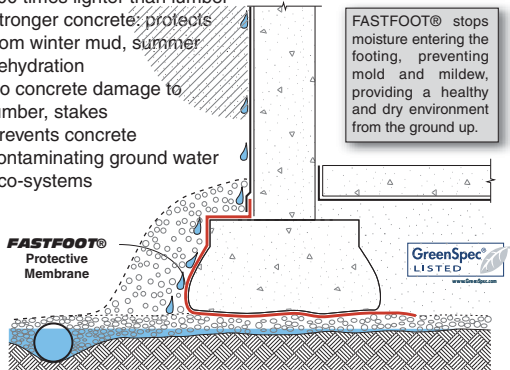

Advantages

- Prevents rising damp
- Costs less than lumber
- Fast to install & strip
- 300 times lighter than lumber
- Stronger concrete; protects from winter mud, summer dehydration
- No concrete damage to lumber, stakes
- Prevents concrete contaminating ground water eco-systems

Perfect for

- Stepped footings
- Deep footings
- Uneven ground & rock

FASTFOOT® stops moisture entering the footing, preventing mold and mildew, providing a healthy and dry environment from the ground up.

Footing-on-a-Roll

FAST-TUBE™

Form columns with fabric

Tube-on-a-Roll

Advantages

- Undamaged by moisture
- Cut to any length with utility knife from roll
- Easy to install & strip
- No ugly spiral lines
- Compact, 1% the space of cardboard
- Easy to ship, handle & store
